

## CASE STUDY YACHT

### 62M SeaXplorer - M/Y Anawa

ICON  
CONNECT

#### BRIEF

The first hull in a new generation of "Yacht Quality" Explorer vessels was built on the multi-award winning Axe Bow platform from Damen Yachting.

Our Challenge was to provide a fully centralized system for this 62m project, enabling all elements of Audio, Video, IT and Security for an Ocean going

#### RESPONSE

Icon Connect supplied a network based solution, minimizing equipment footprint and leveraging a high capability Cisco IT Network for all elements of Audio & Video distribution.

Systems installed included a Dual axis conference room with both 98" and 75" screens and full video conference capability.
